

Intergroup Archives

Over the years the Mississippi Gulf Coast has been home to many a sober member of Alcoholics Anonymous. It has one of the oldest AA clubhouses in the state along with a few of the oldest groups in our state. Many members started the journey of sobriety here and many transplanted themselves here after living this way of life elsewhere. Keeping the history of AA alive and remembered is the goal of our archives, not only in Zone 1 here on the coast, but also at state, regional, and GSO levels. I know that after Hurricane Katrina many vital pieces of our AA history were lost or destroyed. I am looking to pick up the pieces I can find and rebuild our AA history here on the coast. I am in search of the following items to enter in to our coast Intergroup archives, please feel free to drop off anything of interest to the Central Office.

THANKS, DAVID L.
